

Abstract of the Disclosure

A label including a first layer having a first surface adapted to being printed on and a second layer proximate to a second surface of the first layer. The second layer includes two or more sections having a gap therebetween. Each gap in the
5 second layer defines a fold-line section in the first layer. The second layer covers substantially all of the bottom surface of the first layer except for the fold-line section. Another aspect provides a label having a first layer and a second layer attached to the first layer and having at least two sections separated by a gap, the gap being discernible through the first layer.
